## DRESS GOODS MARKED DOWN.

### Surprising Values For You.

Have you seen our bargains in DRESS GOODS? If not, ask some of those that have bought. They were surprised to see such bargains and our large amount of sales the past week shows that it is the greatest sale yet. Now you want a share of this sale for it means money in your pocket.

ONE PIECE, 50 inch black goods, all wool, good weight, was \$1.50 per yard, now 75c.  
TWO PIECES, 50 inch brown and blue mixtures, a very desirable goods for a separate skirt or a suit, was \$1.25, now 50c.  
SEVERAL PIECES, 42 and 44 inch goods, plain blue and black mixtures, were \$1.37 and \$1.00, now 50c.

In going through our large stock of goods, we have found many short pieces or remnants that will pay you to look them over. REMEMBER that our prices on Coats and Suits are always as cheap as can be found anywhere, which are now half price.

## PLEASING ENTERTAINMENT.

Large Audience present at the Re-opening of Odson Hall Last Thursday Evening.

Last Thursday evening saw Odson Hall filled to the doors and gallery as well with people of Bethel and many from adjacent towns; the occasion being the re-opening of Odson Hall. The entertainment was free to the public, an invitation having been extended by the Trustees of the Bethel Savings Bank to all patrons and friends of the institution.

As has been previously announced in these columns, workmen have had the right of way in the hall for some months. A steel ceiling has been put on, the stage has been much enlarged and improved, larger and better dressing rooms have been provided and entire new scenery which is the crowning feature of the whole has been provided.

The hall was well lighted (at least as well as halls can be when kerosene has to be depended upon) and presented, as the multitudes thronged in, a very attractive appearance. The front drop curtain was the central figure and was pronounced by all "a beauty."

The central setting is a mountain scene in view in circle. The lofty snow peaks, the verdant foliage, the dainty shadows and reflected haze and the winding stream widening into a placid basin at the base, makes a picture suggestive indeed of many a beautiful picture from Nature's handwork to be seen among our Oxford Hills.

Another curtain which is really wonderful in effect is the street scene. The audience is looking down a broad elegant street which naturally converges as distance from the view point in order that the view is all but lost to the distance. To fully appreciate this scene one must observe it from different view points. It is one of those pictures which is always looking at those who are looking at it. Stand in the center of the hall and it is directly in front of you and proceeding from you toward the back of the hall and it appears to run diagonally across the hall. Stand on the north side and it appears to run diagonally across in the opposite direction.

During the entertainment the different scenes, including a pastor scene, a cottage scene, a prison scene, a harbor scene and a nature scene with the "mountain pass" was shown. All were very pretty and met the approval of the audience.

The scenery was designed and painted by Mr. Harry Lockhart of Monmouth and speaks well of his ability. It was arranged and shown most creditably during the entertainment by Mr. Marshall and son.

The entertainment was by Mr. Frank E. Hastings, violinist, assisted by Miss Made Andrews, reader, Miss Ada Mae Hastings, soprano, and Miss Mabel Johnson, pianist. All were well received, fully appreciated and heartily applauded.

Mr. Hastings is a favorite with Bethel people and is always enjoyed. Miss Andrews has appeared in Bethel before and is exceedingly popular. The regular popularity of each was fully evidenced, so that, as the audience stood out, we heard over and over again, "a fine entertainment." These three words express the sentiment of the people and characterize the entertainment more fully than a thousand words from the scribbles of a pen and will be remembered with pride.

Brown Relief Corps.

Installed Officers last Wednesday Evening.

The members of Brown Relief Corps, Brown Post and a few invited friends met at Odson Hall last Wednesday evening for the installation of the officers of the Relief Corps.

Mrs. J. C. Billings was installing officer and Mrs. P. J. Tyler conductor and each did their work most creditably. The following officers were installed:

Pres. May H. Bartlett.

Sec. Vice Pres. Arvilla J. Morgan.

Jan. Vice Pres. Oliver S. Grover.

Chap. Ella H. Jordan.

Treas. Elberta E. Burnham.

Rep. Cyrene R. Littlehale.

Con. Eva Hastings.

Guard. Nellie Davis.

Asst. Gen. Angie Chapman.

Asst. Guard. Ella Copeland.

Pat. Gen. Miss Harriman.

Pres. Gen. Evelyn Johnson.

Miss. Alice White.

Also Messrs. Elizabeth Young, Emma Burke, Lottie Thayer, Ella Bartlett.

The installation exercises were very pretty and impressive. The national colors which were noticed in evidence, the martial step, the patriotic airs, the sentiment which found expression in all that was said and done, freighted the very atmosphere with a spirit of patriotism which could not fail to inspire the hearts of all present.

The Bethel Corps was organized in 1882 and has over fifty members. It is an active society and is doing much toward saving the souls of patriots and otherwise strengthening the work of the O. A. R. the members of which organization are fast thickening out.

After the installation exercises were concluded the newly installed president addressed the audience in a few well chosen words which had the true ring and were much appreciated by all. These readings were enjoyed from Mrs. Geo. F. King, Miss Emma Burke and the president. These were followed by remarks from commander A. H. Littlehale, A. R. Chapman and E. C. Park were also called upon and responded briefly. Refreshments were then served to about 50 people and the company broke up feeling that the occasion had been exceedingly pleasant and would not be productive of good.

THE FESTIVAL CHORUS.

First Night calls a meeting at his home for Wednesday night, Jan. 15, at 8 o'clock.

The new books have at last been secured and returned will now go on with enthusiasm.

It is hoped that many will avail themselves of this opportunity of new and useful books.

**\$100 REWARD, \$100.**  
The readers of this paper will be  
pleased to learn that there is one  
dreaded disease that science has been  
able to cure in all its stages, and that  
is Catarrh. Hall's Catarrh Cure is the  
only positive cure now known to the  
medical fraternity. Catarrh being  
a constitutional disease, requires a  
constitutional treatment. Hall's  
Catarrh Cure is taken internally, act-  
ing directly upon the blood and mucous  
surfaces of the system, thereby destroy-  
ing the foundation of the disease, and  
giving the patient strength by build-  
ing up the constitution and assisting  
nature in doing its work. The prop-  
erty of this cure is that it cures the  
catarrh for any case that is liable to  
recur. Send for list of testimonials.

**A NATION OF CRIPPLES  
RHEUMATISM BE-  
YOND CONTROL**

The Only Hope to Rheumatic Sufferers  
Is Urin-O Treatment.

If rheumatism continues to spread as  
it has in the past few years, it will  
soon become a national epidemic. The  
terrible destructiveness of this disease is  
apparent on every side of us. Al-  
most one out of ten of the cripples  
one meets had their affliction brought  
on by Rheumatism. How many thou-  
sands were there that are hopelessly  
bedridden and whom we never see.

Rheumatism, from the very nature of  
the disease can never cure itself and  
is destined to grow worse in  
stead of better. If you ever have any  
trouble of Rheumatism go to your drug-  
gist and get a bottle of Urin-O, the  
wonderful new Rheumatic Specific. It  
will cure you and it is the only treat-  
ment in the world that will cure you  
permanently and thoroughly. Urin-O  
cures by its direct action on the ure-  
ters, blood and kidneys. It seeks out  
the poisons Urin and Rheumatic Acid  
and drives it from the system and in  
the only treatment of such a nature  
that will ever cure Rheumatism. Dis-  
cuss and discuss only serve to drive  
it from one spot to another. They  
never cure Rheumatism, because it is  
primarily a blood disease, and until  
the blood is cleared from the poisons, a  
cure cannot take place.

There was never a case of Rheuma-  
tism that Urin-O could not cure and  
you should not get off taking it. You  
can test Urin-O free of charge if you  
will. Just cut out this advertisement  
and send it to the Smith Drug Co., 210  
South 10th St., Syracuse, N. Y., together  
with your name and the name of your  
druggist, and state that you have never  
used Urin-O and would like to try it.  
They will give you free, through your  
druggist, a 25 cent bottle, which you  
can test and try to your own satisfac-  
tion.

Urin-O is sold and personally recom-  
mended in Bethel by W. H. Hooten.

# The Man on The Road.

Is unavoidably separated from his family.

But need that separation be complete, even while he is away?

Not if he realizes the convenience of the thousands of Pay Stations connected with the New England Telephone and Telegraph Company.

They are indicated by the various "Blue Bell" signs.

Quickly and cheaply they will put him in touch with the loved ones at home.

It's worth a great deal to him. It's worth more to them. It's cost is trifling.

## HOW TO TELL IF YOU HAVE WORMS THE REMEDY THAT QUICKLY EXPELS THEM

The symptoms of the presence of worms in the human system are many and varied. They are often mistaken for other ailments, but a careful examination of the body will reveal their presence. The remedy that quickly expels them is Dr. Williams' Pink Pills for Pale People.

### TOOK DR. TRU'S ELIXIR AND GOT WELL

Dr. Tru's Elixir is a powerful medicine for the treatment of various ailments, including worms. It is made from natural ingredients and is safe for all ages. The following testimonial shows its effectiveness:

"I have been suffering from worms for many years. I tried many remedies, but nothing worked. I then tried Dr. Tru's Elixir, and after a few days, the worms were gone. I am now perfectly well and healthy."

Dr. Williams' Pink Pills for Pale People are also a good remedy for worms. They are made from natural ingredients and are safe for all ages.

### A SANTA CLAUS WORKSHOP IN MAINE

A Santa Claus workshop has been discovered in Maine. The workshop is located in a small town and is run by a man who makes toys for Santa Claus. The workshop is very busy at this time of year, as many toys are being made for the children of the world.

### THE MAN ON THE ROAD

The man on the road is a common sight in many parts of the world. He is often a poor man, who is trying to make a living by selling his wares. He is often seen on the streets of the big cities, where he is trying to sell his wares to the people who are passing by.

## FALL PLOWED LAND.

Freezing of Winter Brings Soil into Better Tilt in Spring.

As much plowing as possible should be done in the fall on the western farm. The soil turned up is exposed to the frosts of winter, and they penetrate it to a considerable depth. It has been found that soils that are covered with sod are not penetrated more than half as deep by the frost as are those soils recently plowed. It is desirable to loosen the earth below the depth to which the plow goes. This is especially valuable in clay soils. With ground plowed well before the coming of frost, the soil will be found frozen often to the depth of 20 inches. This means that every particle to that depth is moved, to a small extent. The expansion of the particles of moisture makes apart and breaks up the most retentive soil. Clay soil that has been well drained is thus made tilable to a great depth, and when spring comes and the frost goes out of the ground the soil will be so loose that air can penetrate to a great depth and chemical action be made way for.

The manures in the surface soil are disintegrated and some of them are washed down to the depth the frost has gone, says Farmer's Review. The following result is that the roots of the plants seek the cool moist earth below if there be in it plenty of plant food, and the plants supported by the roots are the more able to resist any drought that may come in summer. Where droughts are common it is desirable to have plants root as deeply as possible.

Fall plowed land also will be found free of cutworms and other injurious insects in the spring. Some of these insects try to get below the frost line, or at least to a point where freezing and thawing in the early spring is not possible. The plowing of the land turns up these insects and, though they be still covered by the soil, leaves the ground so loose about them that they freeze, and that several times in the late fall or early spring and are thus killed. While fall plowing does not entirely wipe out the army of cutworms that may be in any ground it greatly lessens their number.

## HANDY WAGON BOX BENCHES.

Two or Three Sets Will Prove Very Serviceable on Farm.

Two or three sets of wagon box benches similar to those shown in the accompanying illustration will be found very useful in avoiding heavy lifting and also in the unloading of the

Handy Wagon Box Benches.

The benches should be about two inches wider than an ordinary wagon box so that the bed plates of the racks that are bolted down can be set upon them.

The main piece used in the construction of these benches is a six inch plank. The ends are made of two inch plank, and the benches are bolted together with four inch bolts.

The benches are made in two sizes, one for a single horse and one for a double horse. They are made of wood, and are painted with a coat of white paint.

## JUST HERE PIECE OF STRING.

The Important Part It Plays in Japanese Life.

Writing from Japan, an American says: "You must come here to appreciate some of the quaint customs and usages which contact with other peoples has not yet driven out. To read about them gives you only a poor idea. For instance, did you ever know what an important thing a piece of string is here? The children, workmen, soldiers, servants, all carry pieces of string for use in case of emergency."

"With us the emergency would arise only when a parcel had to be done up, but the Japs use his piece of string as a first aid to the injured, to repair a rent in his clothing, to fix a broken-down bicycle, to mend tools, to take measurements, and, in fact, the string is his universal tool chest."

"The queerest use to which it is put, according to my way of thinking, is when a police officer arrests a man, ties a bit of string about the arrested man's wrist and then leads him by the loop and of the thin hempen fetter to the lockup. You ask: 'Why doesn't the Jap crook break the string and find a gateway?' He could, but he would not. That's where his respect for the law comes in, and the bit of string holds the man as securely as though he were manacled by his own humane chilled steel, nickel-plated and snap-locked method."

## FINGERS OF VARIOUS VALUES.

Thumb Is Really the Most Important of the Digits.

You have only to grasp a pen or a tool of some sort to realize that the different fingers are far from having the same value with reference to their usefulness in performing work. Much the most important is the thumb, for without it prehension would be very imperfect. The hand is no longer a pincher, but merely a claw, when deprived of the thumb. It may be estimated that the thumb represents fully a third of the total value of the hand. The total loss of the thumb is estimated by competent authorities as 15 to 25 per cent, for the right and 10 to 15 per cent, for the left hand, except for workers in art, when 40 to 50 for the right and 25 to 40 per cent, for the left hand comes nearer the value.

The total loss of the index finger causes an incapacity estimated at from 15 to 25 per cent, for the right hand and 10 to 15 per cent, for the left. The middle finger is less important than the index. The ring finger is least important, and the little finger may be compared to its neighbor, except in the professions in which it serves as a point of support for the hand.

When Aliens Die in Egypt. Under the laws of the country all bodies must be buried within 24 hours after death. In the case of foreigners, if relatives desire to remove the body, it must be embalmed or first buried for a year. The process of embalming in modern Egypt is not only very expensive, amounting often to \$1,000, but it is undesirable. Neither is it convenient to bury the dead for a year preparatory to removal. What else can be done? The answer may exist elsewhere in the burial of the dead so that their ashes may be transported to their own country, they are without much force in Egypt. Recently a law has been passed allowing this disposition of the dead, but as it is against the religion of the Mohammedans, the government does not see its way to providing for the turning

Hippopotamy. Hippopotamy being in low water in these later days, somebody has set himself to show what an exceedingly respectable beast attaches to the practice. A most interesting spectacle is in China, eating horse flesh was general, and it was only killed in Europe by a papal decree of Gregory XIII, though why horse flesh should have been interdicted does not appear. It was only the famine caused by Napoleon's invasion that revived the practice in Germany where it has survived ever since.
